

# Usefulness of Bi-Digital O-Ring Test in BICOM Resonance Therapy

Yoshiro Fujii D.D.S., Ph.D.,

Shin-Kobe Dental Clinic, JAPAN

International College of Acupuncture and Electro-therapeutics, NY, USA

## Abstract

While modern western medicine has developed, many kinds of allergies, chronic sicknesses etc. are difficult to be cure by it. To treat these sicknesses, integrative medicine considering the whole-body conditions may be necessary. Oriental medicine is similar to this idea. One of the reasons that Western medicine cannot treat such sicknesses is that modern Western medicine ignores the specific waves of a substance and treats only abnormalities due to Western medical examination. The presenter has attempted to use the Bi-Digital O-Ring Test to capture abnormal electromagnetic waves emitted from organs throughout the body and to find a treatment that can eliminate the abnormal response. I am currently using BICOM® for treatment. The Bi-Digital O-Ring Test can identify abnormal organs in advance, so that treatment can be performed without extra treatment. This may lead to a reduction in treatment time and patient burden. There is a close relationship between the oral and physical condition. Dentistry also influences the whole body health. In the field of dental treatment, it is thought that if the occlusal adjustment is performed after stabilization of the temporomandibular joint, skull, and trunk, safer and more effective occlusal adjustment can be performed.

### Biography

Yoshiro Fujii, manager of Shin Kobe Dental Clinic, completed his Ph.D. from Aichi Gakuin University Graduate School. Fujii is a fellow of the International College of Acupuncture and Electro-therapeutics, 100 next era CEOs and 100 Next era Leaders in Asia by Japan Times (2013,14,15), an editorial board member on three international journals. He is also an authorized doctor of two Japanese associations, and published 30 international academic articles. Fujii is an associate professor of the International College of Acupuncture and Electro-therapeutics NY.
